

DISCOVER NEW 3D SHOWCASE

The virtual group helps architect, engineer, and constructor to quickly create an as-built model and jump-start their designs and can use the ceiling plan and floor plan images for documentation/verification and building turnover packages or use the point cloud as part of the QA/QC process.

Real Estate Virtual Reality 3D showcase

MATTERPORT 3D TOUR

2D PHOTOGRAPHY

- Print-Ready 4K Photo
- 4K resolution capture for printing
- 360 views and spherical images for easy space communication

SCHEMATIC FLOOR PLAN

- Take simple measurements (dimensions) in metric or imperial units.
- Measure remotely — no need for a return site visit just to measure. Measure dimensions of
 - objects, rooms, or even the entire job site. Measurements are accurate to within 1% of reality.

• POINT CLOUD FOR ARCHITECT AND ENGINEER AS BUILT DOCUMENT

Construction professionals can use the ceiling plan and floor plan images for documentation/verification and building turnover packages or use the point cloud as a part of the QA/QC process.

3D Virtual Tour

3D Virtual open house provides a clear view of what the buyer will see in the tour in person and have a more serious buyer during an agent tour visit. We Can Provide Great Insights in the Area of Real Estate Virtual tour and Photography.
